

*Düsseldorf, Germany*

## **CME 2 (Thyroid)**

**Sunday, October 14, 11:30-13:00**

### **Session Title**

**New Guidelines on Nuclear Thyroidology**

### **Chairpersons**

Luca Giovanella (Bellinzona)

Elif Hindie (Bordeaux)

### **Programme**

11:30 - 12:00 Luca Giovanella (Bellinzona): EANM-SNMMI Joined Guidelines on Thyroid Molecular Imaging

12:00 - 12:30 Giorgio Treglia (Bellinzona): EANM Guidelines on Medullary Thyroid Carcinoma

12:30 - 13:00 Frederik A. Verburg (Marburg): EANM Guidelines on Radioiodine Therapy of Benign Thyroid Diseases - Recent Novel Aspects

### **Educational Objectives**

1. To learn about the molecular basis of molecular imaging and therapy of thyroid diseases.
2. To learn about the appropriate selection of molecular imaging examinations in patients with thyroid diseases.
3. To learn about indications and procedures of radioiodine therapy in patients with benign thyroid diseases, including side-effects prevention and management

### **Summary**

During the session the incoming EANM guidelines on molecular thyroid imaging and medullary thyroid cancer, respectively, will be illustrated and discussed. Additionally, novel aspects of radioiodine therapy of benign diseases will be presented.

### **Key Words**

Thyroid, molecular imaging, radioiodine therapy, medullary thyroid cancer
