

*Düsseldorf, Germany*

**Joint Symposium 25 (Radiation Protection / Dosimetry / Thyroid / ICRP)  
Wednesday, October 17, 08:00-09:30**

**Session Title**

**Risk Estimates for Patients Undergoing Molecular Radionuclide Therapy**

**Chairpersons**

Uta Eberlein (Würzburg)

Klaus Bacher (Ghent)

**Programme**

08:00 - 08:30 Martin Andersson (Lund): Lifetime Attributable Risk as an Alternative to Effective Dose to Describe the Risk of Cancer for Patients

08:30 - 09:00 Frederik Verburg (Marburg): Risk of Secondary Malignancies after RNTs

09:00 - 09:30 Wesley Bolch (ICRP, Gainesville): Risk Models for Patients Undergoing Radiation Therapy, Taking into Account Pathology, Deterministic and Stochastic Radiation Effects
